### Income Capital Management: Outstanding Performance in the Third Quarter of 2024

**Prague, October 1, 2024** - Income Capital Management s.r.o., a leading wealth management firm, is pleased to announce its financial results for the third quarter of the year.

#### Market Context

The third quarter of 2024 was characterized by **high volatility** in global financial markets, particularly in August, with persistent uncertainty linked to geopolitical factors and the evolving macroeconomic landscape.

Despite this complex scenario, the Funds managed by Income Capital Management s.r.o. have demonstrated remarkable resilience and achieved returns above market averages.

This positive performance is attributable to **rigorous investment selection, strategic flexibility, and the expertise of the Income Capital Management s.r.o. management team.**

#### Key Highlights:

- **Outstanding Performance and Financial Results:** The funds managed by Income Capital Management s.r.o. have achieved a remarkable performance in the third quarter of 2024, aligning with the set objectives. Fund investors have reported a continuous increase in returns since the funds' inception (April 2024), highlighting careful and strategic investment management.
- **Client Growth:** Since its launch last April, Income Capital Management s.r.o. continues to attract new clients thanks to its reliability and positive results.

#### Funds Managed by Income Capital Management:

**Forex Fund:** The Income Capital Management s.r.o. Fund is designed for investors seeking opportunities to profit in the foreign exchange market. Based on in-depth analysis and active position management, it aims to capitalize on exchange rate fluctuations to generate competitive returns.
